The Full Moon

The Full Moon is a time of revelation and fruition, when input comes so quickly it's hard to process it all. Astrologically it's a time to observe and absorb, and find answers to questions you've been struggling with.

Elias McMillan: The Full Moon in Your Chart

Although this Full Moon may at times seem to place you between dream and hallucination, it emphasizes the ability to perceive and commune with your inner self in ways you might have been cut off from it. The intensity in the air breaks internal barriers and allows you to heal wounds, now that they have come to light. In more mundane affairs, things being cooked up behind the scenes come to fruition, although you may have to take extra precautions that they don't come into the light, unless you are fully ready to go public with them. Avoid confrontations right now, which will put you at a disadvantage, use subtler means to gain your ends when emotions run high.

Moon in 12th House

Moody, even dreamy, during this period of time. Your emotions and feelings could reach heights that are close to ecstatic. It is easy for you to find the proper motivation to fulfill your ideals and make your dreams into reality.

Neptune Trine Mars

A time of sudden insights (maybe jolts!) into very sensitive and vulnerable areas of your psychology. Breakthroughs related to inner growth and transformation. A time during which you reach new levels in understanding life and death.

Uranus Trine Pluto

A time when you may feel your style is severely cramped, in particular concerning relationships and your basic worth and self-image. It may be hard to convey yourself and to communicate with others. A lot is happening.

Saturn Square Ascendant

The good life, and all that is fine and luxurious, may be what you value just now. You could enjoy making your way and finding solutions to whatever problems you have.

Venus Trine Jupiter

This is a time for discovering others or entering into relationships (friends, lovers, and such) with renewed sense of love and compassion. Real breakthroughs, a willingness to try new, different approaches to relationships.

Uranus Square Midheaven

Other people, or the general circumstances in which you find yourself at present, may unite to irritate or anger you. You could find yourself getting over-emotional and flying off the handle. A difficult time to relax and remain calm.

Moon Square Mars

Frustration, especially in getting things accomplished, may set today's mood. You could fly off the handle with very little provocation, so exercise some control and be ready for a possible emotional overload.

Sun Square Mars

Your home and family life may be challenged by someone in authority. This could be job-related. There may be a Mexican standoff.

Mars Opposite Midheaven

You value what is aboveboard and straightforward and have a particular aversion to what is secret, intense, and private. You do not enjoy gossip or nosy neighbors just now.

Venus Square Pluto

You may be very forceful in what you say and think. With all this emotional energy, you could speak or communicate very well. You have mental drive.

Mars Sextile Mercury

Everything conspires to value and bring out your unique and unusual qualities. You may find that someone close to you understands and is supportive of your eccentricities. You could come up with new solutions or inventions.
