Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary

progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year

Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Community Action

Ascendant in Aquarius

You look like you can be all things to all people this year, and you probably can, but you may have to step beyond that to be one thing to one person. It will be easy to parallel process and multitask, but real concentration on something important will require shutting down some systems in order to get it done. Leading edge efforts come naturally, however, as you're attuned to multiple information streams and people notice it, so you'll be the first person to get and give out the news. It's a multimedia event, and you're at the center.

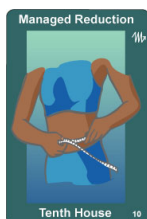

Sudden Progress Arises

Uranus Square Ascendant

Unexpected events can throw off your physical timing this year, so take extra care where you step lest you trip, literally. Things appearing out of nowhere seem to startle and disrupt, though only temporarily, butg still putting a nervous edge on situations that might normally flow more easily.

The Midheaven

Your Reputation, Career, Life Path

Manage Reduction

Midheaven in Scorpio

Your reputation is an enigma to most this year, even if you're putting out like you're an open book. There is nothing so suspicious as real honesty, so let people say what they want and mine the rumors to your own advantage. A well-worn cloak of hearsay can sometimes be warm, indeed.

Manage Emotional Progress

Moon Square Midheaven

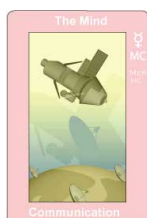

Your emotional concern with personal affairs this year may distract from longer-term career or life-building when they don't all exactly compliment each other, which they won't. It's a matter of playing one off the other so that each benefits and neither suffers, which tends to begin exactly the other way around.

Manage Self Building

Sun Trine Midheaven

Your inner self supports your outer vision this year, and you're likely to get into the nitty-gritty of the production in order to make it succeed. That means throwing yourself into funding and operations so there's plenty of support for the title on the marquee. It's not a task, it's a creative pleasure to do it.

Manage Mental Progress

Mercury Square Midheaven

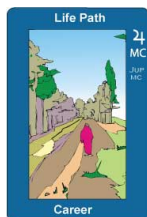

Sometimes what you say in person doesn't exactly translate to those who aren't present, so you may have to spend some time fielding and correcting mistaken notions of what you're talking about. It's not malicious rumor, just the folk process that transposes a few key words or concepts that you'll have to put back into order.

Manage Accepting Action

Mars Sextile Midheaven

Whatever you do this year behind the scenes or simply hidden from view will serve you well, even though you may not exactly know why at the time. Digging for treasure may actually find you some, and working on your own inner issues could unearth personal information that will have been more than worth the effort.

Manage Accepting a Path or Method

Jupiter Sextile Midheaven

Graceful expansion and trying out things behind the scenes before going public with them allows you to get a lot more mileage out of new possibilities than seizing them as yours up front. Your opportunity to show particular grace as a winner awaits you, and doing nothing about it is exactly the right policy.

Manage Accepting the Physical

Saturn Sextile Midheaven

Checks and balances may seem to hold you back this year when in fact they're holding you up. Hidden supports that have been around and taken for granted can become your mainstays, although you may not recognize it at the time. A lot is about good habits keeping you out of troubles that you don't notice you've missed.

Manage Spiritual Building Blocks

Neptune Trine Midheaven

The illusion that your well-oiled machine is functioning efficiently and profitably may or may not have a basis in truth, but this year everyone's buying it, so the better for you. Creative embellishment on who you are and what it is you do is the stuff of advertising and Hollywood, and saying it often makes it true.

The Foundation for Your Year (continuation)

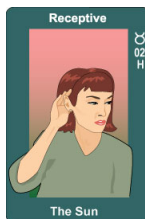

Manage Accepting Power

Pluto Sextile Midheaven

You've got support you don't know about this year, forceful friends that are smoothing your way not necessarily because you deserve it but because the situation demands it. So if you act like destiny is on your side, you're probably on the right track, but don't take all the credit for it.

The Sun

Your Inner Personality and Style

Receptive

Sun in 2nd House

You're likely to be wrapped up in your resources this year, putting yourself on the line for concrete gains and reality, where the buck starts and stops with you. In order to get what you want, you need to know what you want, and that requires throwing yourself into the task and truly identifying with the gains you hope to achieve. Some may think it's all about money, but it's really about having the wherewithal to fulfill yourself, the basic platform to launch and sustain your personal values and goals. You literally and figuratively are going for the gold and everything that precious metal symbolizes.

Authoritative Plans

Sun Sextile Saturn

The past quietly supports the future for you this year, and you'll find that much of who you are is built on what you once were and have rather forgotten about. The labors of the past bear you up without requiring credit or recognition, since they were achieved to enable your efforts now, so get on with those.

The Moon

Your Feelings, Reactions, Emotions

Community Support

Moon in Aquarius

Your ability to see everyone's point of view this year goes up several notches, bringing with it the challenge of just what to do about it. You'll want to be all things to all people - it will just feel so right - but the challenge will be to resolve the inherent conflicts so brought about. Here your saving grace will be honesty, as when you put it all out on the table for all to see, you become the negotiator everyone turns to for help. It's all about taking turns, and you'll know who goes in what order because your natural instincts give you the right answers this year at least, so remember how you did it.

Tough Support

Moon in 1st House

You are likely to lead strongly with your emotions this year, and your feelings on any matter at hand are likely to be up front and forcefully stated. This can allow you to sell your point of view in the marketplace or engage in any kind of give-and-take repartee from mere banter to deep heartfelt discussion. Your reaction time will be sharpened in general, but so will your sensitivity and inclinations to take things to heart that loom larger than reality to you. Magnifying the moment makes time so much more intense to you, but that may not be the case with others, so take their temperature, too.

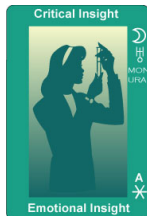

The Foundation for Your Year (continuation)

Fresh Ideas

Moon Conjunct Mercury

You're quick with a word this year, and it will usually be the right one, immediately appropriate to the situation at hand and how you feel about it. Emotional expression is clear and even witty, and you needn't agonize or plumb the depths to say what you really mean. It's right there on the surface, what you say is what they get.

Critical Insight

Moon Sextile Uranus

Little epiphanies fuel your every move this year, but chances are you don't notice the fine stream of learning you're passing through because the revelations from moment to moment are so small. You'll look back and be amazed at the emotional progress you made without particularly attending to it at the time.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

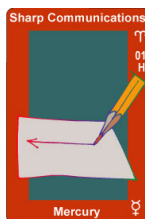

Your Mind and Intellect, Thoughts and Plans, Communication

Psychological Ideas

Mercury in Pisces

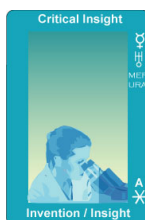

Your thought processes don't have to make sense to work well, and sometimes your off-the-wall hunch is as solid as the next person's sure-fire plan. Even if you can't explain it, you can still go ahead with it if it makes internal sense to you. You can troubleshoot and document it after you've proved it works anyway.

Sharp Communications

Mercury in 1st House

Ideas come right to the surface this year, slipping out before you know it like extensions of your personality. Even if you didn't make it up, the way you put it sounds like you did, because it's got force and sales power behind it. Saying is believing, however, so remember you're responsible for it.

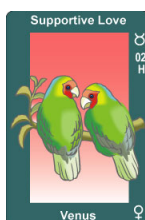

Critical Insight

Mercury Sextile Uranus

Your path is littered with originality this year, but you may hardly notice just how much so, as every little bright idea seems small and obvious and only together do they come together to make up serious change. Your main intention isn't to be abidingly clever, just uncover what's necessary to get the job done.

Venus

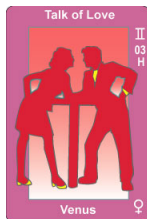

Your Needs, Wants, Desires

Supportive Love

Venus in Taurus

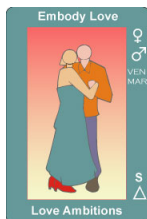

Well-considered and long-sought pleasures are the goal, and if it's really wonderful then it's worth building, saving, and waiting for. That applies to everything from food, to living quarters, to love affairs. Further, it's the simple, more earthy approach that lasts longer, so you don't need frills, just substance.

Talk of Love

Venus in 3rd House

A good word may be as valuable as a good check, as communications are what get you where you want to be this year. When you say it beautifully, people listen, even if the content is not that deep. Of course, you could deliver that as an extra, but this year you may not have to, and still please everybody.

Embody Love

Venus Trine Mars

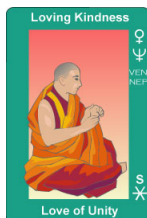

What you want and the method by which to get it walk hand in hand this year, and flames desire are a sure engine-starter and burn fuel efficiently. It's also a hallmark of unflagging charm as you're evenly and consistently able to deliver what's wanted and enjoy the process along the way. Good for work and play, both.

Building Blocks

Venus Trine Jupiter

What you want is what you get this year, and you'll find yourself happy with new choices and the increased appetite for life they bring, one after the other. Expanded horizons mean expanded capacity, but watch your waistline doesn't follow suit. Satisfaction, this time, means having happily had just enough, not gulping down more.

Loving Kindness

Venus Sextile Neptune

Small dreams, small satisfaction, together they piggyback into a life panorama of pleasure, happiness, and fulfillment. Incremental joy is a theme for the year, which you may only truly appreciate in retrospect, as the individual memories will be with you to savor in memory for a long time to come.

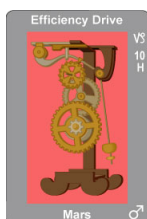

Building Power

Venus Trine Pluto

The surer you feel about achieving your objectives, the more likely that is just what will happen. That kind of faith in the inevitability of satisfaction is on tap for the year, and the more you lean on it, the farther you will go. When you know it's in the cards, you can play fearlessly and still enjoy the game.

Mars

Your Energy, Life Force, Excitement

Efficiency Drive

Mars in Capricorn

Hard work doesn't mean long hours, but it does mean unflagging focus and a single purpose to get your job done. That approach will float your ambitions and support your success as long as you keep your eye on the ball. Not much room for frills or play, but when it's done you can bank on the launching pad you create.

Urge to Accept

Mars in 12th House

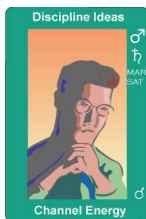

Fools rush in, but don't be one of them this year, as the angels aren't giving out guarantees. Rash actions backfire, but working quietly behind the scenes can get you what you want if you take care not to flaunt it. Look twice before you drive each nail □ it hurts so much when you miss.

Career Ideas

Mars Conjunct Jupiter

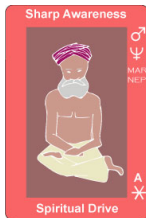

Look for a big energy boost this year, perhaps diluted by so many different new places to put it. Active pursuit of new ambitions and projects is the key, with a youthful feeling suffusing all because it's quite physical at times. It's about not only being enthusiastic, but doing something about it, pushing the envelope.

Discipline Ideas

Mars Conjunct Saturn

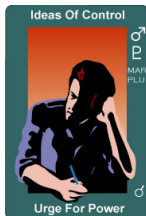

There's a lot demanded of your energies this year, and you don't have a lot left over to waste, so when you do something it has to have serious intent. This adds a patina of extra care and caution about where you expend your precious inner resources. Work takes on the quality of necessity, as you ration your fuel to get the job done.

Sharp Awareness

Mars Sextile Neptune

Your strokes tend to be small and even this year, your energy following your imagination not in great leaps and bounds but smoothly on a constantly-reimagined path that you don't have to think about to achieve. Just envision the next few feet ahead of you, and the road goes ever on like you own it.

Ideas of Control

Mars Conjunct Pluto

The temptation to break things that don't immediately yield to your touch is strong, and you'll do well to resist it this year unless extreme circumstances arise that require forceful measures. You may feel you have the right of eminent domain over others' right-of-way, but don't run roadblocks unless you can outrun the results.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter	Ambitions, Goals, Possibilities
	<p>Management Career <i>Jupiter in Capricorn</i></p> <p>Established principles are in the air this coming year, and expansion by contraction is the mysterious solution to the question "Quo vadis?" A conservative, no-nonsense approach that favors continuing the old to reach the new is your course. Of course, time marches on, even if you're sitting still. If that's your move, that's your decision.</p>
	<p>Career Helping <i>Jupiter in 12th House</i></p> <p>Biting off more than you can chew and the resulting life indigestion is this year's risk, but forewarned is forearmed. You have lots of opportunities behind closed doors, but only if you keep them that way. Taking credit for everything will get you reward for nothing, so be discriminating where you expand.</p>
	<p>Skillful Ideas <i>Jupiter Conjunct Saturn</i></p> <p>This one-year-in-twenty promises a climate of social and financial change in which new ways of approaching life come up to challenge more traditional beliefs and methods, marking background turmoil and uncertainty as it all sorts out. These are what the Chinese called "interesting times," less predictable and more heroic than most.</p>
	<p>Discrimination <i>Jupiter Sextile Neptune</i></p> <p>A more realistic and satisfying way to blend dreams, hopes, and expectations by sharing is in the wind, if you are willing to take a deep breath. Actually, a series of shallow breaths describes it better. What once you may have kept to yourself, it is time to exchange with others who have been in the same situation.</p>

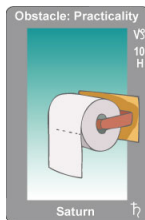

Strategies

Jupiter Conjunct Pluto

Sometimes innovation and expansion arrive on a gentle breeze, sometimes on a hurricane. This year is likely to see the latter, when progress is not to be resisted or it will overcome you by sheer force. This does not mean you have to get on board of every new brainstorm, but if you see a juggernaut coming, either climb on or get out of the way.

Saturn

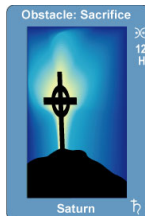

Caution, Wariness, Wisdom, Boundaries

Obstacle: Practicality

Saturn in Capricorn

Although work may be its own reward, the work ethic is not a guarantee of success. This year reveals that, as efficient and judicious effort is rewarded while those who have been only repeating operations based on previous success will find their edifices relentlessly crumble. The past reaches the future only through change, don't forget it.

Obstacle: Sacrifice

Saturn in 12th House

You have to say no sometimes, but this is a year to think twice before you do, as limiting yourself at just the wrong moment can be the one thing that can get you into trouble. Criticism in general should be held at a minimum, even (particularly) if you think no one is privy, as it may come back to haunt you.

Objective Research

Saturn Square Uranus

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

Transforming Ideas

Saturn Conjunct Pluto

This year marks a time in the world when conservative ideas and organizations gain their power through force, fear, or covert activities, or by simply steamrolling their opposition. Stay out of the way of this sort of operation, and it will probably have little personal effect, but it puts an air of worry in the social background that things are not as stable as they should be and that something somehow is amiss.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus

Discovery, Revelations, New Ground

Freedom: Productivity

Uranus in Taurus

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Ideas

Uranus in 3rd House

Sudden changes of mind because of unexpected new communication lines opening up keep you on your toes. A lot of them may emanate from you, so you shouldn't really be so surprised. By insisting on doing it a new a better way, the flow gets interrupted, but for the better, once you've adjusted to the new approach.

Neptune

Dreams, Hopes, and Fantasies

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

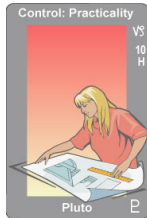

Release: Productivity

Neptune in 2nd House

Where the support comes from this year may be a bit of a mystery, so if you think you've got it nailed down, you probably don't. Be like the lilies of the field, once you've done what's possible, then enjoy what turns up, and you'll be arrayed quite sufficiently unto the day.

Pluto

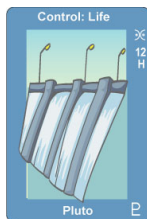

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Life

Pluto in 12th House

Kids shouldn't play with guns, because they go off when least expected. So it is with adults, and when you think you're safe with the equalizer in your palm, it could turn out you've brought a pistol to a tank battle. Smug delusions of power are the danger this year, with undoing from unexpected quarters if you get to feeling too sure wielding your advantage.

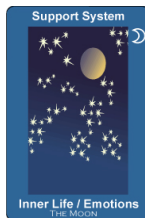

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Moon

Your Feelings, Reactions, Emotions

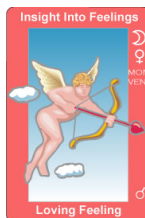

Feelings Are Accented

Moon Conjunct Moon

You're likely to feel very comfortable in your emotional approach this year, as it's a replay of your own birth situation. It's like you're wearing a familiar pair of old shoes that do the walking for you. When you play it like you feel it, you've got a pretty good idea of how it's going to come out.

Venus

Your Needs, Wants, Desires

Insight Into Feelings

Moon Conjunct Venus

You're extremely attuned to what you want, and sometimes desire is so strong you can taste it this year. You don't have to fumble around for an excuse or a way of phrasing it, you just know it the moment you see it and reach out to grab it. The question will be, how available is it and does someone else want it, too.

Ascendant

Your Looks, Your Presentation

Values Are Apparent

Venus Conjunct Ascendant

You look simply marvelous this year, yes you do. Simply marvelous and who cares if much of it's in the eye of the beholder. Your appearance has a bit of a candy coating that makes you glisten attractively to the hungry eye, so you needn't sugar-coat your approach to have it entirely sweet enough already.

Midheaven

Your Reputation, Career, Life Path

Manage Practical Action

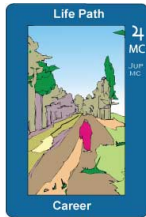

Mars Conjunct Midheaven

What you do is what they'll be talking about this year, so get moving and keep it going, or at least let it out that that's what's happening. Any career efforts now have extra power because you have more energy to put into them, partly because you'll be expected to. When the world cheers, you perform.

Jupiter Conjunct Midheaven

Now is the time for others to toot your horn, so don't feel you have to do it, too. If anything, modesty is the best policy to underplay what may be general overstatements about your abilities. Make the best of the free advertising, so you can use it later when it's not so easy to come by.

Manage Problems

Saturn Conjunct Midheaven

This is a very hard year to sustain your reputation but a good time to make sure you are flying only the truest colors and nothing anyone can find fault with. It will be harder to recruit business, but what you do achieve will be long remembered for its validity, so do it especially well.

Midheaven

Your Reputation, Career, Life Path

Manage Practical Power

Pluto Conjunct Midheaven

This year the current state of your reputation is being extinguished, at least in its present form, and replaced with another visage entirely. The transition may be difficult and require a serious career change, but the final results need not be deleterious, despite initial impressions.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Mar 21, 2020 to Mar 21, 2021

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Ideas of Control

Why hit a carpet tack with a hammer when you can use a pile driver? That's the philosophy in the air, so you'll likely see a lot of overkill going on at every level. Diplomacy is for wimps, hit 'em with both barrels. A good time for it, where a high level of force is truly necessary, but choose your shots and don't waste ammunition.

Problems Appear

Slowdowns are the order of the day, brought on by extra work, added commitments, less firepower. This, too, will pass in a few days, but you have to go through it, not around it. You may be taken extra seriously about how you present yourself right now, so when in doubt, lighten up for the sake of all concerned.

A lot of people may be running out of steam right now, but those who are keeping up establish a pace that just won't quit. Conservation of energy and using only just what you need to get the job done is the lesson to be learned, and operations begun now will be long-term marathon performers. Banked fires burn hot.

Mercury Conjunct Neptune (TR-SR)

A mist upon the mind makes ordinary clarity just history for the time being, but the numinous clarity of dreams is at your beck and call. Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year
